

## SUBMISSION IS NOW OPEN

The Brand New II class of Scuola Holden in Turin, presents *Flash Forward International Short Film Festival 2018*. The Festival will be held in the Scuola Holden on the 7th - 8th of April 2018. **The theme is the future.**

The festival will take place over two days. Day one focuses on how today's films imagine the world of tomorrow and day two examines how films of the past imagined the future (our present).

'80 and '90s nostalgia is all around us, increasingly influencing the goods that we use and the world that we live in. Against this backdrop, the festival seeks to consider that which will be, because though the future is not yet scripted it can be imagined. Hence we not only seek science-fiction short films, but all those short films that question what will be in decades to come.

To submit your short film (documentary, fiction or animation) for selection, it must fulfill all of the following criteria:

- 1. Be produced between 2010 and 2017**
- 2. Be no longer than 30 minutes**
- 3. Be set in the future or have the future as theme;**
- 4. Be Subtitled in English or Italian (for example with dotsub);**
- 5. The film director must be over 18**
- 6. Be submitted by midnight 25th February 2018**
- 7. Fulfill the application form at the link [flash forward form](#)**

The short film needs to be sent as a Vimeo or Youtube link to **[flashforward.isff@gmail.com](mailto:flashforward.isff@gmail.com)**.

Participants are advised that by submitting their link they agree to one free public screening of their short film during the festival. There will be no charge due for submission or screening.

We invite the film directors to attend the festival. Unfortunately, there is no support for travel expenses but the organization can connect guests with students who are willing to host them during the event.

Please answer all the questions as incomplete forms cannot be processed.

THANK YOU!
