

LEARN THE DOCUMENTARY?

CIBA 2019 MEETING - INCINE, Quito, Ecuador, 8-11 May 2019

CALL FOR PAPERS

INCINE, the Quito film school, organizes the annual meeting of film schools in Latin America affiliated to CILECT, in order to discuss some problems that we pose as teachers related to the learning of documentary in our educational environments. The meeting will take place in the context of the 18th documentary film festival EDOC ("Encounters of the Other Cinema").

The topic responds to concerns of the Ecuadorian academic and professional environment, and has found an interesting echo in the consultations made to colleagues in the Latin American region. We are sure that in other regions the subject will also be of interest. The theme will be discussed in three panels:

The first, called "Documentary and truth in the era of simulation", will focus more on the problems that contemporary documentary poses around the language of cinema.

The second, "Documentary and movie theaters: a story of love and hate", will discuss the problems that today's audiences and broadcast windows pose to the documentary.

The third, "Documentary and film schools: learn what everyone knows", will discuss the meaning and ways of learning documentary in formal learning environments.

This thematic proposal is not exclusive or closed. Papers will be accepted that can in some way dialogue with these topics, and also proposals for related conferences. The denomination of the panels can be reformulated according to the received papers. The official languages of the meeting will be Spanish, Portuguese and English. There will be simultaneous formal translation into Spanish and, for those who require it, dubbing between the other languages, by volunteers.
